

THE TRIBUNE.

FRIDAY, JANUARY 16, 1857.

CONGRESSIONAL.

WASHINGTON, Jan. 9.
SENATE.—Mr. Seward introduced a bill to expedite telegraphic communication for the use of the government in its foreign intercourse. It authorizes the Secretary of State, under the direction of the President, to contract for the aid of the United States in laying down the submarine cable to connect existing telegraphs.

Adjourning to Monday.
HOUSE.—The House passed twenty-one private bills, and the adjournment was about being effected, when Kelley introduced a subject which caused much excitement. He presented it as a question of privilege, first, caused it to be read at the Clerk's table, and also the editorial from the New York Times of the 6th inst., which charges members of Congress and lobby agents with gross corruption, mentioning the Minnesota land bill in the connection, and saying that evidence can be produced to carry conviction to every honest heart that the criminal should be driven from the high places which they have dishonored.

Mr. Kelley remarked that the charges contained in this article appeared to have been based on a letter from that city to the Times. Under ordinary circumstances, it would perhaps be a waste of time to notice articles of this character appearing in the newspaper; but the editor of the Times occupied a position before the country, which entitled his statements to credit. If he is in possession of the facts he therein charges, he should substantiate them before a Committee of this House, that members who may be guilty of such conduct should be known to the country. As the case now stood, he (Kelley) could neither vote for or against a certain proposition, without bringing himself directly under the charges in that article. If there exists such a combination as is alleged, he wanted to know it, and have the facts go before the people. He concluded by offering the following:

Resolved, That a Committee of five members be appointed by the Speaker, with power to send for persons and papers, to investigate said charges, and that the Committee report the evidence to be taken, and what action, in their judgment, is necessary on the part of the House, without unnecessary delay.

Mr. Paine: I scarcely know whether I ought to say anything or not. I know nothing about that letter, nor his journal. I know nothing about any communication made to it. I know not how he obtained the information. I know not whether it is true or false; but I do know that there has been a proposition made in the House, by a member of the House, upon the subject. [Sensation.] I shall not name the gentleman. [Cries of "Down in front—stand out of the aisle we can't see."] I shall mention no member by name. [Voice, "You ought to do it."] It was with feelings of indignation I heard the proposition. [Impetuous demand of "What was it? Tell it!"] The reason why I did not announce it to the House, was, that pending the organization of this body, a member rose in his place and stated that a fellow member had directly made the attempt to temper with him for his vote for Speaker. The only credit he received was being laughed at, and it was charged that he did not accept the proffered bribe, because there was no such profitable place to be had. I say distinctly there is not a want of truth in the allegation contained in the Times' article. A distinct proposition was made to me by a member of this House in regard to the Minnesota Land bill, and that fifteen hundred dollars would be given in consideration of a vote for that bill. If the proposed Committee shall be raised and I called on as a witness, I shall give my evidence. The resolution after further debate was adopted. The Speaker will announce the committee to-morrow.

Adjourning.

WASHINGTON, Jan. 10.
The Senate is not in session, having adjourned till Monday.

HOUSE.—The Speaker announced a select committee to investigate the alleged charges of corruption to consist of Messrs. Kelley, Orr, Davis of Md., Ritchie, and Warner.

Mr. Grew said he had for two or three weeks past signed by 1800 voters of Kansas, renouncing against the right of Mr. Whitfield to act as delegate from that Territory. He had been informed that a large number similar to this were on their way, and asked to have the petition of Mr. Reader, setting forth the reasons for contesting Mr. Whitfield's election, referred to the Committee on Elections.

Mr. Reader, in his petition, denies the right of Mr. Whitfield to the seat, and claims it for himself, setting forth the reasons for this assertion. He says that he and Mr. Whitfield were candidates at two separate elections, when he, Mr. Reader, received more than double the number of legal votes cast for Mr. Whitfield.

Upon a full investigation of all the facts, the House rejected Mr. Whitfield but refused to admit Mr. Reader. The reasons for this are set forth in the report of the Kansas investigating committee. Without new legislation, and under the same state of things, Mr. Whitfield became a candidate for the single session of the same Congress at an election held in October last, without authority of law. A large majority of the legal voters refused to participate, preferring to recognize a voluntary election, the question having been already adjudicated by the House. The persons who did participate in that irregular and unauthorized election were a small number of the voters of the Territory less than those who voted at the voluntary election, in October, 1855, and a large number

of non-residents of the Territory, per a not entitled to vote on the result of the election. Mr. Whitfield had been admitted and now occupies his seat in this House. It was without the semblance or color of law. Other reasons were also stated.

WASHINGTON, Jan. 12.
SENATE.—The Senate resumed the consideration of the Iowa election case. Sidel, Adams, Fessenden, Trumbull, Tombs, and Houston advocated Harlan's right to a seat. Mallory, Butler, and Benjamin opposed it. The Senate adopted the resolution reported by the committee of the judiciary declaring Harlan not entitled to a seat as Senator. Yeas—Allen, Bayard, Benjamin, Biggs, Bayler, Butler, Cass, Clay, Cornog, Crittenden, Dodge, Evans, Fitzpatrick, Mason, Pearce, Pratt, Reid, Rusk, Sebastian, Sumner, Tenney, Miller, Wright—23.

Nays—Bell, of N. H.; Bell, of Tenn.; Brown, Collamer, Durke, Fessenden, Fish, Foster, Hale, Houston, Pugh, Seward, Sidel, Tombs, Trumbull, Wade, Wilson—13. Adjourned.

LATEST FROM CALIFORNIA.

NEW YORK, Jan. 12.
The steamship George Law, from Aspinwall, has been signalled below. She brings dates from California to the 20th ult.

The George Law brings upwards of a million and a quarter in specie.

The Supreme Court of California has declared the entire State debt unconstitutional excepting \$500,000, and recommends the adoption of the debt by the Legislature, and that the question of redemption be submitted to the people. No transfer of stock has been made since the decision.

The people are opposed to the repudiation. Meetings have been called in various parts of the State to give expression to public opinion. At a meeting held in San Francisco, resolutions were passed pledging the redemption of the debt by the people. The amount is over three millions. The court also decided that a million and a half of scrip issued by the old corporation for street assessments was illegal. It also decided the suit brought by the purchaser of the city slip property for the recovery of the money paid to the city, the same having been since declared illegal. The decision is, that, although the sale was illegal and therefore the title reverts to the city, yet the purchase money must be recovered from the Land Commissioners who made the illegal sale. The amount in dispute is \$1,200,000.

The court also decided that the city is not liable for \$375,000 for a lot purchased for county buildings.

The court sanctioned the seizure of the Fremont Mariposa Grant for taxes, and the estate will be sold unless the taxes are paid.

The mining news is favorable. Markets dull. There have been large arrivals of goods during the past fortnight, nearly the whole of which have been sold at a low price.

ORGANIZATION OF THE LEGISLATURE.—The Legislature organized on the 1st. L. F. Grover was elected speaker.

There was a battle fought on the 21st of November at Puget's Sound between the Northern Indians and the United States steamer Massachusetts. Twenty-seven Indians were killed and twenty wounded. The remainder surrendered. But one of the steamer's crew was killed.

DATA ARE AS FOLLOWS: Panama Jan. 11, Valparaiso Nov. 30, and Callao Dec. 11. The markets at Valparaiso are dull with large stocks of merchandise.

The revolution in Peru is progressing. General Vivero, the leader of the movement, had been received with enthusiasm at Arequipa, and several provinces had declared in his favor. Arica was attacked on the 24th of November by an insurgent steamer, Lea and Aparicio. Business completely paralyzed.

ADVANCES FROM SAN JUAN DEL NORTE to December 23. No tidings from Walker had been received there for some days previously. Sent paroled with her and stopped running his boats. Walker had seized for his own use all the steamers on lake and river.

A letter from Granada, Dec. 1, states that the church at Gundaloupe was still held by 200 Yankees, who refused to surrender at the summons of Gen. Bellozo. They were to be attacked, immediately after which the bulk of the allied army would proceed to operate with Gen. Canas against San Juan at Virgin Bay.

The loss of the Kibbister since the 24th is stated at 390—that of the allies small.

Private letters state that the Indians of Onapete had risen against Walker and killed fifteen Kibbisters.

Walker, with 160 men, had attempted to take Granada, but was repulsed.

Later advices, from Rivas to Dec. 5, say that Walker had arrived within one league from Rivas and was preparing to attack Gen. Canas, who had 600 men; well supplied with provisions and munitions.

A few skirmishes had taken place between the advanced guard.

Walker's men are said to be badly off, with scarcely anything to eat—dying off daily with dysentery.

The 200 men, hemmed in the church of Gundaloupe, were destitute of water, subsisting on horses, but nevertheless obstinately refused the quarter offered them by Bellozo.

FROM MEXICO.

BALTIMORE, Jan. 10.
The New Orleans papers, of Tuesday last, received to-day, are in possession, by an arrival from Tampico, of three days' later advices from Mexico. At the city of Mexico everything was quiet. Gen. Alvarez had issued a document to the people declaring his intention to support the administration of Gen. Comonfort as the only government likely to restore Mexico to peace and prosperity.

AN ARGUMENT.—The Washington correspondent of the New York Tribune, under date of 20th December, contains the following:

"Much resentment is felt towards Mr. Fillmore by the Americans in Tennessee and Kentucky, for his letters to Donelson, Knoxville, and others, assuring them of the certainty of the vote of New York. They reject at his being factually killed."

This says the Frankfort Commonwealth is news to the Americans of Kentucky. They rejoice that MILLARD Fillmore is killed off! This correspondent is little aware of the deep hold that pure statesman has upon the hearts of Kentucky Americans. They feel no resentment towards him, because he has never deceived them as to New York or in any other way. He is above deception, or falsehood. His private and political character is without a spot or blemish. Party blood-hounds may howl around him, party detractors may be levelled at him, but no more than the Father of the country, can he be supplanted in the hearts and affections of Americans everywhere. It was glorious to have fallen with such a leader. We are ready again to take him as our standard-bearer in 1860. If our principles cannot in the end triumph with such a man as he to lead us on, then they can never triumph. Instead of rejoicing at his defeat, the Americans of Kentucky mourn that their country, which is so dear to them, is not again to be governed by a statesman so eminent—so upright—so Washington-like.

NOT TO BE PUT DOWN.—The principles which we have sustained are as dear to us to-day as ever before, although defeated, we have no abiding confidence that American principles will ultimately prevail. The progress of American nationality is checked only parties may be beaten, but principles are eternal—they will live, and even in the darkest hour of adversity, acquire new strength, and finally triumph. The word "fail" has never found a place in our political creed—success is only a question of time. Americans are not dispirited; so far from it, they will go to work with a renewed energy and determined zeal which nothing can resist. These simple souls who are flattered themselves that this is the last of the "Know Nothings," will ere long awake and find themselves most egregiously mistaken; they know how to bear a defeat, and they also know how to win future victories.—Ky. Whig.

KANSAS LANDS.—The Indian Department at Washington has received information that about 300,000 acres of the Delaware Trust Land, recently sold yielded \$450,000. Upwards of 300,000 acres, including Lawrenceville City, also belonging to the Delaware Indians, are yet to be sold. There are also 100,000 acres opposite St. Joseph, Mo., and the same number on the Orange river, the former held in trust for the Iowa Indians, unsold. The choice tracts will on the opening of spring, be brought into market before any United States lands shall be opened for sale in Kansas.

THE annual statement of railways in the United States has just been published by the United States Railroad and Mining Register. It makes the total number of miles of railway 24,125, being an increase of 3,434 over the preceding year. The increase is larger in Pennsylvania than in any other State, being 426, while the largest increase in other States is, Illinois 398, Indiana 360, and Wisconsin 353 miles. Ohio leads the list with 2,609, New York following next with 2,703, Illinois 2,501, and Pennsylvania 2,164.

The Carolina Times seems to have a very just appreciation of the late Southern Commercial Convention. "It adjourned," says that journal, "after adopting the usual number resolutions, &c., all of which will be filed away with these previously adopted, to be hereafter referred to for drafting similar patriotic sentiments." After this brief notice of the convention, the Times, by way, perhaps of hint to its members, proceeds to treat of the subject of lunatic asylums.

LAND SPECULATION IN MINNESOTA.—Hon. Joel B. Bassett, says the St. Anthony Republican, last week sold a parcel of real estate, consisting of 140 acres at the mouth of Bassett's Creek, Minneapolis, for \$35,000, or \$250 per acre. W. D. Garland and Alex. Moore are the purchasers. The front of the tract is a part of the town plot. The tract sold was purchased a year ago last spring at \$125 per acre.

WHISKY TRAFFIC IN BUCKHORN.—The Paris Flag says: There is a considerable excitement in the whisky trade here at this time. We hear of sales of copper distilled at 75 to 80 cts. to be made this season, steam copper distilled at 65 and 75 cts. There is a large amount being made this season than for many years. Mr. J. A. Miller has erected a large distillery in east Paris, calculated to turn out 55 barrels per day. There are eighteen in active operation in the county.

YOUNG COLTS AND CATTLE.—The half-feeding of young stock is one of the most mistaken and injudicious systems ever pursued by man, besides being positively sinful. They should be provided with good, tight, warm, dry sheds, facing the south, opening into yards. They should be so fed, as to be always kept in good growing condition—so fed, as that the elements of bone, muscle, tendon, and a moderate degree of fat, are always to be found in the quantity and quality of the food given to them.—American Farmer.

SALE OF CATTLE.—Judge I. O. Hockaday, of this place, sold Mr. Holmes, of St. Louis, on Friday last, Mr. Holmes, for \$400 cash. Also two aged steers for 105 cash and three years old steers for \$190—making \$800 for 10 head of cattle, or \$80 per head.

FRESH PEACHES, Core Oysters and Sardines, just received for sale by J. C. HEWLEY.

Valuable Tavern Stand IN DANVILLE, AT PUBLIC SALE.

On Monday, February 2, 1857, Being the 1st day of Boyle Circuit Court, W. K. will sell at Public Sale, to the highest bidder, on the premises, The Tavern Stand and Stables, Known as the "Central House."

This house is of brick, 3 stories high, well arranged, and has every convenience for a good business, with necessary out-buildings. The Stable is a large brick, nearly new, fronting on Main-street, and has accommodations for about 50 horses.

The whole property is valuable, and a profitable business can be done with it by an energetic, managing man. Possession will be given immediately.

Tracts—One-third in hand, or in 4 months, by the purchaser giving a satisfactory note; the balance in one and two years, the purchaser giving bond with approved security.

This settling off he cannot even pretend to account for, and does not consider himself responsible. Whether it is a righteous judgment upon those who long neglect the Debt of an indigent Creditor, that they shall not live out half their days, one thing is certain, that it is unkindly to let accounts run too long; and as the undersigned would much rather settle with Principals than their Executors or Administrators, he hopes none will neglect this notice, as otherwise, their accounts will be placed in the hands of collectors.

It has occurred that Good Luck always attends his Work when paid for at once, and he informs his Friends, that he will devote himself closely to Repairing Watches, Euclerating, &c. NEW STOCK!

The Farmer's Column.

The Richmond Messenger is informed that Col. Hall Anderson, of Garrard, sold from his farm last year stock amounting to \$22,000. His hogs brought \$16,000, cattle \$9,000, and other small sales make up the amount.

Bleeding trees to make them bear, is one of the best methods of increasing the yield of the orchard. The bark should be cut entirely through. But the wood should not be penetrated with the knife. The advantages claimed for this operation are:—1st. It promotes rapid growth.—2d. It aids trees whose outside bark is hard and unyielding. Stone fruited trees are not injured, it is said, by this operation.

The Roots of Trees.—Trees in the nursery, and in the plantation, should have a free space to spread their roots. If their roots are confined, as in pot culture, they take a downward turn often, like a corkscrew. In this way, they lose the advantage of the sun and surface soil, and are likely to produce a stunted and irregular growth in the tree. Trees should be transplanted from the nursery early; and their roots should be careful to be cut out, so that they may have a fair chance. To prevent the downward turn taken by the roots, when the trees are planted in pots, it is best to use old baskets. The roots can thus be kept away from the loose fabric of the basket, and need not be lost or hurt in transplanting.

The Hemp Crop.—Advises from the West concur in stating that the hemp crop of the present year not only exceeds in quantity the average of former years but is greatly superior in quality. There is, generally, it is stated, to the east of us, little American hemp as yet in the market, and both the naval and mercantile marine have been compelled to use cordage manufactured from Russian hemp, which is inferior in quality to the American, and will seldom come up to the standard. Within a few days past the Government probably influenced by the efficient Chief of the Bureau of Equipment and Repairs, have made purchases of Manila hemp, the price being relatively much lower than the Russian, and rope made from it better adapted for running rigging, cables and hawsers.—*Bull. GREAT success is always the most conclusive proof of merit. Judged by this test there is no labor saving Machine before the public comparable to SINGER'S SEWING MACHINES. After establishing the highest reputation in the United States, they were exhibited at the "Centennial Universal," in France, where they carried off the highest premium; and a great manufactory to make them has been built in Paris.

In Every Branch of Industry In which sewing is to be done, these Machines can be used with immense profit. As the speed of the Sewing Machine is to travelling on foot, so the Sewing Machine is to travelling on wheels. No tailor, shoe maker, dress-maker, carriage trimmer, saddler, letter, &c. &c. should be without one. The fair proportion of using one of these machines, regularly employed, is

One Thousand Dollars a year. To all private families where there is much sewing to be done, these machines are an invaluable assistance. Planters and hotel keepers find them particularly convenient and profitable. These machines are simple in their construction, and very strong and durable, being of the kind of Sewing Machine ever made, by which every sort of work, coarse or fine, could be perfectly executed. Thousands of inferior and worthless Sewing Machines have been made and sold under various names, but SINGER'S Machines alone have been found everywhere to satisfy the wants of the public.

From printed instructions for using are sent with each machine, from which any one can readily acquire the art of managing them. The machines are put up securely, in a neat and portable case, and are sent by express, or by mail, to any part of the world. To all persons desiring more particular information, we will, on application by letter, at either of our offices, forward a copy of L. M. SINGER & CO.'S Circular, a paper which is devoted to the Sewing Machine interest.
